

GREATER NEW ORLEANS STEM INITIATIVE: CORE ELEMENT
Grades 3-6 Summer Institute:
Science, Literacy & Numeracy

Who: *Elementary Public School Teachers of Science Grades 3-6 in Orleans, Jefferson, St. Bernard, Plaquemines & St. Charles Parishes*
TEACHERS IN OTHER PARISHES AND NONPUBLIC MAY ATTEND IF SPACE PERMITS AND FOR A FEE.

What: *Research-based Science Curriculum Exploration*

When: *July 11-15, 2011, 8:30 a.m. – 3:30 p.m.*

FAX THIS FORM TO: Andrea Walker at 379-3826
Incomplete applications will not be accepted.

Application receipt acknowledged by email.
Confirmation emails for acceptance will be sent by June 1, 2011 with followup information.

Science, Literacy & Numeracy Integration

- Receive training in standards-based curricular materials.
- Access to mentoring for classroom implementation.
- Use student journals & trade books to Increase student achievement.

2011 Session Modules

ARIES Exploring Energy
 Students investigate the concepts of energy and work. They observe the effects of energy transfer, and harness the energy of flowing water, wind, and sunlight to do work.
http://www.charlesbridge.com/client/school/pdf/scope_sequence/ARies.Energy.pdf

ARIES Earth in Motion
 Students investigate shadows, the changing relationship between the Earth and the Sun, the daily path of the Sun, and the spin of the Earth.
http://www.charlesbridge.com/client/school/pdf/scope_sequence/ARies.EarthMotion.pdf

FOSS Physics of Sound
 Students investigate properties of sound and sound waves.
http://lhsfoss.org/scope/folio/pdfs/Sound_Matrix.pdf

FOSS Landforms
 Students investigate variables that influence erosion and deposition and the subsequent creation of landforms and create topographic maps as a means to represent landforms.
